Comments: Hello to whomever these words meet,

This forest is dear to me.

I have spent 3 summers praising the old growth, laying on its moss, bare feet connecting with the forest floor. Please stop them from cutting down this forest. This ecosystem is too valuable to be logged. These trees are alive and part of something WAY bigger and more valuable than any door, guitar, or whatever new shape they make take.

You know the facts, you know the impact this forest has, how important it is, I won't repeat what you know already, so please don't repeat mistakes we have learned to be detrimental to this ecosystem.

So please, stop them from allowing exemption to the Tongass National Forest from the roadless rule.

With all my heart,

Abbie
