Comments: KEEP ALASKA ROADLESS! Roadless forests are needed to protect endangered sasquatch!!!! I commented last year and the alaska exemption does nothing for sasquatch or talks about my comments about the Kenai. I requested roadless areas on the Kenai be changed so I can drive along the rivers for subsistence hunting and fishing and hunting. Brown bear need to be killed cuz the are the main competitors for endangered sasquatch. Your rule is an infringement of my rights as a sovern AMERICAN and is an example of federal over reach. The forestry service must be run by democrats who are part of the deep state and bring impeachment to our GREAT president Trump. Leave our forests and roadless areas alone!!! The forestry service should not be funded anymore and any saved dollars returned to taxpayers. I pay taxes and you are wasting it trying to impose rules that impinge on hard working Americans. STOP! Make America Great Again!
