Comments: Our president is giving away our heritage to special interests, who will pay only a fraction of what they take out. This is expected of a president who is willfully disruptive of everything our country holds near and dear. It will take fifteen generations to get back a one thousand year old tree, for the profit of a baron in his seventies who will be around for maybe a dozen years. Long term damage to our heritage for the short term profit of a few seems to be his mantra. I ask the forest service to do it's job of protecting, nothing in your charter says your job is to exploit for profit.
