First name: Peter

Last name: Cramer

Organization: Silver Tree Forest Farm

Title:

Comments: This is foolish and misguided. Please dont allow this to happen. These trees left alive and standing are far more valuable than the materials provided by cutting them. Please dont be so short sighted. Enough is enough already. Actions like these are the epitome of short term gain for long term loss and harm. We dont need the wood. Literally, we do not need to do this, so lets not let it happen.
