First name: Elisha

Last name: L

Organization:

Title:

Comments: My name is Elisha from Sherman Elementary school I am a 4 grader me and my class are learning about national parks I think people should not be cutting the trees in Tongass N.F. because all the animals living there will die and I don't want the forest to chang. We need trees so they can use the carbin dioxide. Trees are very inportand if people cut the trees we wont have that much. if people cut the trees lots of animals will die
