Why just why give a good answer.I don't think you can because you just want to. When you say that everybody in Alaska agrees; THEY DON'T. And you have to respect that.Let me ask you something. When you where a kid did you have vote's in your class? i bet you did. did you ever have your teacher vote for you? and you got mad because you did not get what you want that's how Alaska fells . and the rest of the world
