

Data Submitted (UTC 11): 12/16/2019 9:00:00 AM

First name: August

Last name: Gold

Organization:

Title:

Comments: This land was set aside for our children, the national parks service is as much a part of our heritage as any monument we have. The preservation of our soil has been in the forefront of the identity of our nation. Myself and other veterans firmly believe in the preservation of our environment and the American identity are inextricably linked, by removing this protection you remove not only biodiversity but the diversity of terrain that this nation holds.
