Last name: kingham

Organization:

Title:

Comments: As an avid fisherman, lover of wilderness and a steward of this earth, I implore you to not allow this to happen. The last intact native sockeye salmon run in the world can't be decimated so that we can harvest more trees from this area. There are plenty of other areas that can be logged without the harm to this precious area. Please do not open up the roadless area.

-Jonathan Kingham
