Comments: My family and I have camped for many years at Haw Creek Falls and spend many a day trip out there. Please do not discontinue maintaining the facilities there. It will still be used for camping, but, I fear, it will become trash laden and dangerous for families to continue using. Because it is maintained, people respect the site. But, once it is no longer on the radar, people will abuse and misuse it as often happens with primitive camp sites. I strongly oppose removing this facility from your purview.
