Comments: Re: Recreation Realignment Project- specifically Haw Creek Falls

Dear Mr. Jones,

I am a frequent hiker and have often used Haw Creek Falls as a base camp for accessing the OHT.

It would be a shame to remove the facilities available there. This area is also a popular day use site for locals who have weddings, picnics, reunions, etc. If the toilets and trash services are not maintained, or removed, I fear the area would rapidly decline. It would also damage an already fragile environment. Let's continue to protect and maintain one of Arkansas's special scenic areas.
