Comments: Maintain protections for Alaska Roadless Rule

Dear Secretary Secretary Perdue,

Alaska is such a special place, and a lot of what makes it special is its unspoiled forests! It would be a travesty to change the protections the Tongass National Forest has had for these many years, and I cannot understand why this new policy has been initiated. Consider that ALL of your predecessors have protected this unique place, what has changed now? We lost the many acres of Amazon forest earlier this year, now MORE trees are going to be lost?! Please do the RIGHT thing and continue the protection of the Tongass.

Sincerely,

Faye Rogers

Sincerely,

Mrs. Faye Rogers
