Comments: Tongass National Forest Road rules

As a concerned citizen and proud American I am opposed to giving over public lands to private interests. As climate change continues to exponentially get worse we need to protect unique and vital ecosystems. Please note that I am in favor of Alernative 1. Which takes no action and leaves all of Alaska under the 2001 Roadless Rule.

This wilderness is a part of our great American heritage and should not be sold off or debased.

Yours truly,

Marie Malik
