Comments: Support for Alternative 1

Sent from my iPhoneAs an annual visitor to Alaska for hunting, fishing, hiking, backpacking and overall enjoyment of Wilderness I strongly support Alt 1, the so-called "no action". In fact the best most forward action we can take is to protect the wild unloaded land on the Tongass.

Please reject this radical development at any cost stance of the State of Alaska and do the right thing for posterity.

As we face the accelerating climate crisis maintaining the Roadless Rule for the Tongass is even more critical.

Bill Cunningham
