Comments: Alternative One

Hello,

I'm a US citizen and registered voter, and I'm writing to express my support for Alternative One (opposing road building and logging in Tongass National Forest).

I'm aware that the current administration does not seem to value our natural lands, nor to understand the significance of the forest's carbon storage capabilities or the importance of salmon fishery health to the ecosystem. The ancient trees within Tongass NF CANNOT BE RESTORED once cut down.

Please do everything in your power to protect these lands and choose Alternative One. For the overall health of the earth and humanity. Please.

Thank you for your consideration.

Best,

Justin Lanoff
