Comments: Roadless Rule in the Tongass

I am writing in support of leaving the roadless rule as is for the Tongass National Forest. Having read many ideas, opinions, and information from foresters who have worked on the Tongass, I believe the rules should not be changed. I could elaborate further, but you will have read the same ideas over and over; preserve salmon habitat, deer protection in winter, growing tourism industry, largest temperate rain forest, waste of taxpayer dollars to mention a few.

Please keep the Roadless Rule as is for the Tongass.

Janet Thrower
