Comments: Alaska's Tongass National Forest, the Amazon of America.

Dear USDA,

I'm writing to inform you that I am not in favor of opening Alaska's Tongass National Forest to additional logging. I make my living in wild remote locations throughout the west, including Alaska. My ability to earn a living will be dramatically effected if we loose the wild, natural forest that is the Tongass.

I would be grateful for the USDA scrap the plans to open the Tongass. Thank you for your time.

Best wishes, Dan

Daniel J. Cox
