Comments: my comment

I live in Petersburg, Alaska, in the middle of the Tongass National Forest. I'm 71 and have lived here almost 50 years. I have a business with 3 employees servicing commercial fishing boats, primarily salmon boats. Please retain the present roadless rule, Option 1. The Tongass is too valuable as is. Encouraging more timber harvesting with more road building in old growth areas is false economy. Keep the Tongass sustainable.

Thank you,

John Murgas, Owner, Petersburg Marine,

Petersburg, AK 99833
