Title:

Comments: I l've the OHV areas, and how they are maintained, but the OHV parks are leaving a lot of potential on the table. More single track - 1 way direction - tighter trails will bring more riders. Please for the love of all that is holy do not try to make these into SxS trails, or permit them to enter. I have been riding/ racing for over 20 years, and everywhere I have seen that allows SxS vehicles tends to turn the parking lot into a pretty dangerous place. Doing donuts, etc. Not sure if you are aware that the healthiest race series in America is GNCC, with 3,000 riders coming to some events. People love riding trails, but no one wants to go through a trail with the worry that someone is coming the other direction on a quad.
