Comments: Imperative to all OHV trail systems is the addition of motorcycle-only, one-way, single track trails. The only OHV that I am aware of that has ONE (yes a single 5 minute trail) is Whissenhunt OHV. I believe it is 192 L. So Whissenhunt needs to add many more and all other OHVs need to also add motorcycle-only, one-way, single track trails. Thanks and Merry Christmas!
