Comments: I ride with a group of about 10 two wheel riders and would love to see more/ some single track type Trails at the ORV parks such as Houston valley. I enjoy riding and I'm glad we have what we do have to ride, but two way trails are scary and dangerous so a lot of times we pay more and drive further to get on single tracks or at least one way trails. I've discussed this with my group and they all feel the same and we wouldn't mind volunteering time and labor to help put in such trails. If posted at parks a day and time for volunteers or email me we would be there and might be surprised at the turn out
