Comments: Please end the process of closing roads and expanding wilderness areas. Too much of the so called public land is inaccessible already. If it is to be public the land needs to be actually open for all public use. Roadless areas keep people out. I would like to see more areas fully open to OHV access and use. Ideally the land should be sold off so that it can be used as the market decides and not at the whim of a beaurocracy that has no stakeholding in it.
