Comments: We would like to register our opposition to the 2020 Recreation Realignment Project. Discontinuing maintenance by the Forest Service will result in vandalism and litter. This is particularly significant with respect to Haw Creek Falls, as this area is home to one of the most beautiful wildflower displays in Arkansas.

The restroom facilities are necessary to keep the areas sanitary for campers. During the Memorial and Labor Day weekends nearly every campsite at Haw Creek Falls is in use.

These three areas are well worth the small expense and time to preserve as they are. Therefore, we strongly support a No Action (Alternative I) plan.
