Title:

Comments: I am opposed to closing any OHV trail anywhere in the vicinity of North Georgia. There are so few places to ride already. I am especially fond of Tibbs, Windy Gap, and Milma as I live nearby. If Maintenance is part of the issue, I will personally organize trail Maintenance weekends and keep these trails clear. The upper section of Windy Gap should have never been closed. The only issue with that section of trail is that it was only accessible by vehicle via the top. Reopen it and the gates to Old CCC Camp.
