U.S. Forest Service Alaska Roadless Rule Committee:

Please preserve the roadless rule for the Tongass. We have loved and enjoyed the wild beauty of the Tongass and hope it can continue for generations to come. Thank you for your consideration.

The Roadless Rule has been instrumental in conserving the Tongass National Forest and in supporting its fish and wildlife-based industries for almost 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77. Roadless areas are an important source of food, jobs, and income through commercial, subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Jim Ridgway
