U.S. Forest Service Alaska Roadless Rule Committee:

Let's preserve the wilderness for our youth - our upcoming hunters and scouts and nature lovers. AL is a beautiful place and we need to remain responsible to preserve its beauty and welcoming wonder-for locals and tourists.

The Roadless Rule has been instrumental in conserving the Chugach and Tongass National Forest and in supporting its fish and wildlife-based industries for almost 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77, by selecting the 'no action' alternative. Roadless areas are an important source of food, jobs, and income through commercial, subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Zane Grobler
