U.S. Forest Service Alaska Roadless Rule Committee:

This is one of the last places that are steelhead still have a good environment and thrive. Let's keep it that way, not like the lower 48.

The Roadless Rule has been instrumental in conserving the Chugach and Tongass National Forest and in supporting its fish and wildlife-based industries for almost 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77, by selecting the 'no action' alternative. Roadless areas are an important source of food, jobs, and income through commercial, subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Richard Cain
