U.S. Forest Service Alaska Roadless Rule Committee:

We travel a great distance and spend a lot of money in Alaska to enjoy the natural beauty of all of Alaska. In 2020, we will be spending 3 months travelling, camping and fishing in Alaska. Please leave it "as is"! Tourism is your income industry, destroy it and you will lose your way of life and income.

The Roadless Rule has been instrumental in conserving the Chugach and Tongass National Forest and in supporting their associated fish and wildlife-based industries for more than 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77, by selecting the 'no action' alternative. Roadless areas are an important source of food, jobs, and income through commercial, subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Victor Salash
