U.S. Forest Service Alaska Roadless Rule Committee:

Growing up in Alaska, one of the last places in America with so much uncharted territory and undeveloped land, the possibility of removing the protective measures on the Tongass Forest is devastating. This National Forest provides so much for the Alaskan people. Please protect it. I am begging you.

The Roadless Rule has been instrumental in conserving the Chugach and Tongass National Forest and in supporting their associated fish and wildlife-based industries for more than 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77, by selecting the 'no action' alternative. Roadless areas are an important of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Maya Kemp

Anchorage, AK 99501
