Comments: Please do not cut down old growth forests. Please do not use herbicides in Lumpkin Co. We use the streams and forests. Commercial loggers only take the best and healtist trees snd leave a mess. Also the logging roads they put in make usually errode and they never leave the land in healthy shape. They are barely HS graduates and are not the hiking outdoorsy kind of men.These companies do not CARE about what the public thinks. JUST MONEY AND PROFITS.
PLEASE STOP THIS TRAVESTY!!!!!!!
