First name: D J

Last name: Spisak

Organization:

Title:

Comments: We know that it is difficult to involve the public in decisions but this is OUR LAND. We need to know what individuals within governmental organizations are doing to and with it. And we have a right to our voices and decision making. That said we need more information. What exactly do you plan to do with our land, and exactly which location are you targeting? This is not just relevant, it is of primary importance. Things will go more smoothly if we know precisely what it is you are proposing. These are large powers and need our approval. Please give us the details we need to make informed decisions, and the time to read and consider. Sincerely , D J Spisak
