Title:

Comments: I have previously petitioned against the LNG pipeline in our state, focusing mainly on dangers to our watershed and ocean port, but the fact that rules for our forests' care are going to be disregarded in order to facilitate building of an unpopular and environmentally disastrous pipeline project is offensive to me as a tax payer and resident. Our coastal range is a natural and recreational gem and a carbon holding resource of worldwide value and should not be sacrificed for what will be short term gain for our state.
