Title:

Comments: -I ride most of the trails and gravel in North Georgia on motorcycles and bicycles often and am very concerned that closing it will limit my ability to enjoy healthy, active recreation my friends and family. I typically spend approximately \$150 everytime I visit at local businesses when I use the trails.

I request that any closures of OHV or moutain bike areas on the Chattahoochee National Forest should be offset with the establishment of new OHV and mountain bike areas on the forest offering the same opportunities. I'd also like to request more trails.

Adding sustainable single-track, motorized trails would significantly improve my recreation experience. These are currently very limited here in Georgia, vs. other parts of the country where we travel.

Thanks for asking.
