First name: Michael
Last name: Hammer
Organization: Lake Burton Civic Association
Title: Assistant Treasurer
Comments: The Executive Committee of the Lake Burton Civic Association has asked me to respond to you regarding Foothills Landscape Project 52509. I have attended three meetings concerning this project and reviewed the information provided by the USFS. The information provided is deficient on site specific programs that will be implemented and the potential impact to the surrounding water basin, in this case Lake Burton. More information is needed to determine the impact of this project to this important basin of the Tallulah River.
