First name: Ronnie

Last name: Pesserilo

Organization: Chatahoochee Trail Horse Association

Title: Member

Comments: As an active member of Chattahoochee Trail Horse Assoc. and an avid trail rider since the 1980's, I am saddened that so much of OUR acreage is at risk with the Foothills Landscape Project #52509. These forests, trails, rivers, streams have offered citizens of this State (as well as many others) the enjoyment, peace and beauty that is so very important in our lives. We as citizens of the State of Georgia must be heard that we do not want this Project to happen. If it does, our lands will be decimated by fire, chemicals and erosion. To take this land out of lives for at least 20 years is a travesty of justice and these forested areas will never again be the same. Trails will be taken away, rivers and streams will be ruined due to the build up of silt and our wildlife will not survive the impact.
