Comments: This is a request for the forest service to keep forest users informed of Foothills Landscapes via local papers for input regarding logging, chemical use, and burning in their respective areas.
The idea of not making these details available to the public is similar to our elected officials passing legislation before it being made public.
As a horseback rider, Regarding the possible effect of this on horseback riding trails is critical. Georgia is woefully deficient in official trails for this user group and the managed trails should be carefully considered and preserved.
