Comments: I would like to express my extreme concern for the proposed changes. Blocking out the public opinion for 20 years goes directly against what this great country was built on. We should be notified of all of the details of the plans, and have a vote in how our forests are managed. Myself, my family, and my friends use this land as an escape from the stresses of day to day life and it must be preserved and not harvested for financial gain!! The purpose of this land is to be a preservation for the wildlife and for the people. Please, reassess your plans and let the public have a voice!!
