Comments: Dear Ms. Jewett,

I am an avid hiker, as are many of my friends here in Rabun County. I want to know where logging or other treatments are going to be done. Will they be near trails and camping areas? Why, if these things are not going to be harmful, are we not allowed to know where they are planned? With the environment under stress from climate change, we should be protecting our big trees, not cutting them down and scaring the forest with big machinery and roads that will silt up our clean streams.
