Title:

Comments: ? The Forest Service failed to consider an alternative that doesn't require exempting Jordan Cove from

adhering to their forest plans.

? Late Successional and Riparian Reserves should not be stripped of protections at the behest of a foreign fossil fuel company.

? The Forest Service did not consider site-specific impacts that pipeline construction would have and must disclose impacts and plans for mitigation on a site-specific basis.

? The pipeline plan undermines the Forest Service's "survey-manage" protocol, created to ensure the protection of federally protected endangered species.

? The Forest Service did not analyze or mitigate for increased fire risk from the LNG pipeline.

? The cumulative effects of this proposal on watershed, wildlife, and fire management have not been analyzed for their comprehensive "purpose and the effects" as required by law.

? The proposal fails to meet requirements of the Aquatic Conservation Strategy and should not be exempt from analysis and mitigation of landslides, sedimentation and waterway degradation.
