Comments: I am crushed. This is my playground. I've been enjoying these lands for 35 years. My dad made it a point to take me into these pristine areas to camp and enjoy what our Lord created for us. I am so lucky that I got to take my daughter for the first time this year to experience the wonders of The Chattahoochee National Forest. I hope that for many years to come I would be able to share those memories with my children and theirs just as my Dad has been able to do with me.

Please dont destroy these lands.
