I live in SE AK. I do not want more roads, I do not want anyone to cut down our trees. The trees will be useful in the future. What is the lifespan of a Sitka Spruce? Have we been logging that long? No one knows what will happen if more forest is removed. Alaska is giving money away, for free to in habitants. we do not need a stronger "Timber Economy." The roadless rule is good. Please tell the USDA secretary to change nothing.
