Dear U.S. Forest Service:

The Roadless Rule has been instrumental in conserving the Tongass National Forest and in supporting its fish and wildlife-based industries for more than 20 years. *Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77.* [Text bolded for emphasis] roadless areas are an important source of food, jobs, and income through commercial , subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. *Please do not roll back roadless are protection for habitat that our irreplaceable fish and wildlife populations need to survive.* [Text bolded for emphasis]

Customize your comment by listing reasons the Tongass is important to you or why you value Alaska Roadless areas: (ex: specific locations you recreate, activities you do, or why you value fish & wildlife) [Text italicized]

LISTEN to the overwhelming majority of Alaskans and keep the roadless rule intact. We need to protect the Tongass for our fish, wildlife, tourism, fishing (commercial +sport) and to preserve our Alaskan way of life!

Sincerely,

Would you like to volunteer with TU Alaska to Help America's Salmon Forest?

Yes[Text circled] No
