Dear U.S. Forest Service,

CC: Alaska Congressional Delegation and Federal Administration

I support the no-action alternative to leave the 2001 Roadless Rule in place on the Tongass National Forest. We must continue to phase out old-growth clear-cut logging and instead prioritize restoring degraded watersheds and fish streams that contribute to the growing fisheries and tourism-based economies of Southeast. To that end, please conserve the Tongass 77 and TNC priority areas in the final Roadless Rule.

Sincerely,

We should not be doing this with climate change. We should not be cutting old growth in our Rain Forest.

[Box unchecked] I would like to get more involved in the campaign!

By taking this action, you are consenting to receive future communications via phone, text message, email, or mail from Sitka Conservation Society and its partners working to protect the Tongass. [Text italicized for emphasis]
