U.S. Forest Service Alaska Roadless Rule Committee:

I would actually just like to know, other than money what the benefits of this would be? What are the goals that will be attained in doing so? Is this a wise move for the conservation of our wild places that are slowly (not as slow as I would like) disappearing? Is there an article I can read that you suggest? Thank you.

I am writing in support of the 'no action' alternative to leave the Roadless Rule unchanged in Alaska. I am concerned that changes to the rule would lead to greatly expand clear-cut logging of old growth timber and costly road building in undeveloped, wild areas of both the Tongass and Chugach Forests. These activities increase sedimentation, hurt water quality, often block salmon migration, and add to an already large backlog of needed road maintenance and restoration.

Our fisheries and wild forests are critical to the economy of Alaska. To grow these sectors of our economy, we need intact habitat. Please leave the Alaska Roadless Rule in place.

Sincerely,

Courtney Dole
