U.S. Forest Service Alaska Roadless Rule Committee:

I visit Alaska regularly to fish the "Last Frontier". The TNF needs our support. While watching the testimony of agency officials at Congressional hearings, I see how vital they are to preserve our freedoms. Please join them as only you can! Thank you for listening.

The Roadless Rule has been instrumental in conserving the Tongass National Forest and in supporting its fish and wildlife-based industries for almost 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77. Roadless areas are an important source of food, jobs, and income through commercial, subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Craig Cheselske
