U.S. Forest Service Alaska Roadless Rule Committee:

Wilderness like the Chugach is disappearing in our country, and as an expecting mother I implore you to save this critical fish and wildlife habitat so all of our children can enjoy the beauty and bounty of Alaska for generations to come.

The Roadless Rule has been instrumental in conserving the Chugach and Tongass National Forest and in supporting their associated fish and wildlife-based industries for more than 20 years. Please uphold the Rule's protections for important fish and wildlife areas, including the Tongass 77, by selecting the 'no action' alternative. Roadless areas are an important source of food, jobs, and income through commercial, subsistence, and recreational fishing. Salmon are part of Alaska's culture and we must protect them and their spawning streams. Please do not roll back roadless area protections for habitat that our irreplaceable fish and wildlife populations need to survive.

Sincerely,

Hanna Coleman

Edina, MN 55436
