Dear U.S. Forest Service,

CC: Alaska Congressional Delegation and Federal Administration

I support the no-action alternative to leave the 2001 Roadless Rule in place on the Tongass National Forest. We must continue to phase out old-growth clear-cut logging and instead prioritize restoring degraded watersheds and fish streams that contribute to the growing fisheries and tourism-based economies of Southeast. To that end, please conserve the Tongass 77 and TNC priority areas in the final Roadless Rule.

Sincerely,

Tim Flanery

Comments: **(Eg: list locations you recreate, or why you value Tongass fish & wildlife)*[Text italicized for emphasis]*

Anything we can do to preserve and protect our wildlife. Alaska wildlife fuels the alaskan work force thru tourism which is now our #1 resource.

Also we love to conservatively eat wild foods.

☒ [Box checked] I would like to get more involved in the campaign!

**By taking this action, you are consenting to receive future communications via phone, text message, email, or mail from Sitka Conservation Society and its partners working to protect the Tongass. *[Text italicized for emphasis]*
