Dear U.S. Forest Service,

CC: Alaska Congressional Delegation and Federal Administration

I support the no-action alternative to leave the 2001 Roadless Rule in place on the Tongass National Forest. We must continue to phase out old-growth clear-cut logging and instead prioritize restoring degraded watersheds and fish streams that contribute to the growing fisheries and tourism-based economies of Southeast. To that end, please conserve the Tongass 77 and TNC priority areas in the final Roadless Rule.

Sincerely,

Jean Snodderup

The Tongass is part of the life support system of this planet. It makes no sense to not maintain it. Our species had better start thinking long term for the sake of our children.

[Box checked] I would like to get more involved in the campaign!
