Dear U.S. Forest Service,

CC: Alaska Congressional Delegation and Federal Administration

I support the no-action alternative to leave the 2001 Roadless Rule in place on the Tongass National Forest. We must continue to phase out old-growth clear-cut logging and instead prioritize restoring degraded watersheds and fish streams that contribute to the growing fisheries and tourism-based economies of Southeast. To that end, please conserve the Tongass 77 and TNC priority areas in the final Roadless Rule.

Sincerely,

Suzanne Fuqua

We must protect our salmon fisheries, we must look to the future of our forests and work to sustain the old growth left. As a 40 year resident, home owner, and commercial fisher the future of salmon, the forest, and local economies are important to me.

[Box checked] I would like to get more involved in the campaign!
