Title:

Comments: special recreation permit fee

Just saw the story on Facebook. I suggest ignoring the negative feedback and go forward with charging a reasonable fee. I think \$11 is too high. \$6 maybe as it is already as some federal day use areas on Mt. Hood. You are never going to get much positive feedback on adding fees but I can see where they are needed. But can it be enforced? I see a lot of people ignoring paying the fee at some forest campground day use areas.

Mike
