Comments: Park Fees

Good Morning,

Although I can afford to pay fees, I am not writing this letter for myself. I am writing it for many hard working people who can not afford another expense. The outdoors should be enjoyed by anyone, not just the affluent. Some of us have never had to worry about the light bills or food on our plates and don't have a clue what \$5.00 a person, or any additional expenses really mean to many families. Let's remember that we live in "The land of the free" and consider our neighbors when we decide who among us should have the privilege to enjoy the natural beauty of Oregon. I believe "We the people" in Oregon are better than that.

Regards,

Gail
